E100MKA **Cover, mounting kit for E100 series converters**

E100MKA is a versatile accessory for the E100D12 converter, enabling it to be mounted easily to any flat surface or standard “top hat” DIN rail.

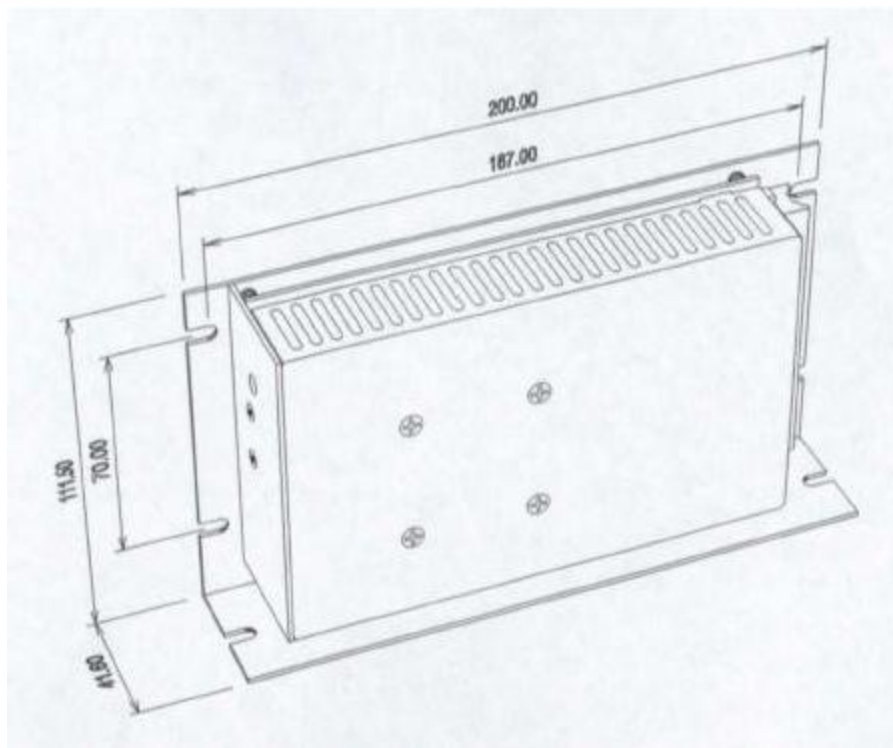

All necessary hardware for mounting the MKA to the E100 is included. The clip and screw for the din rail mount option are also included.

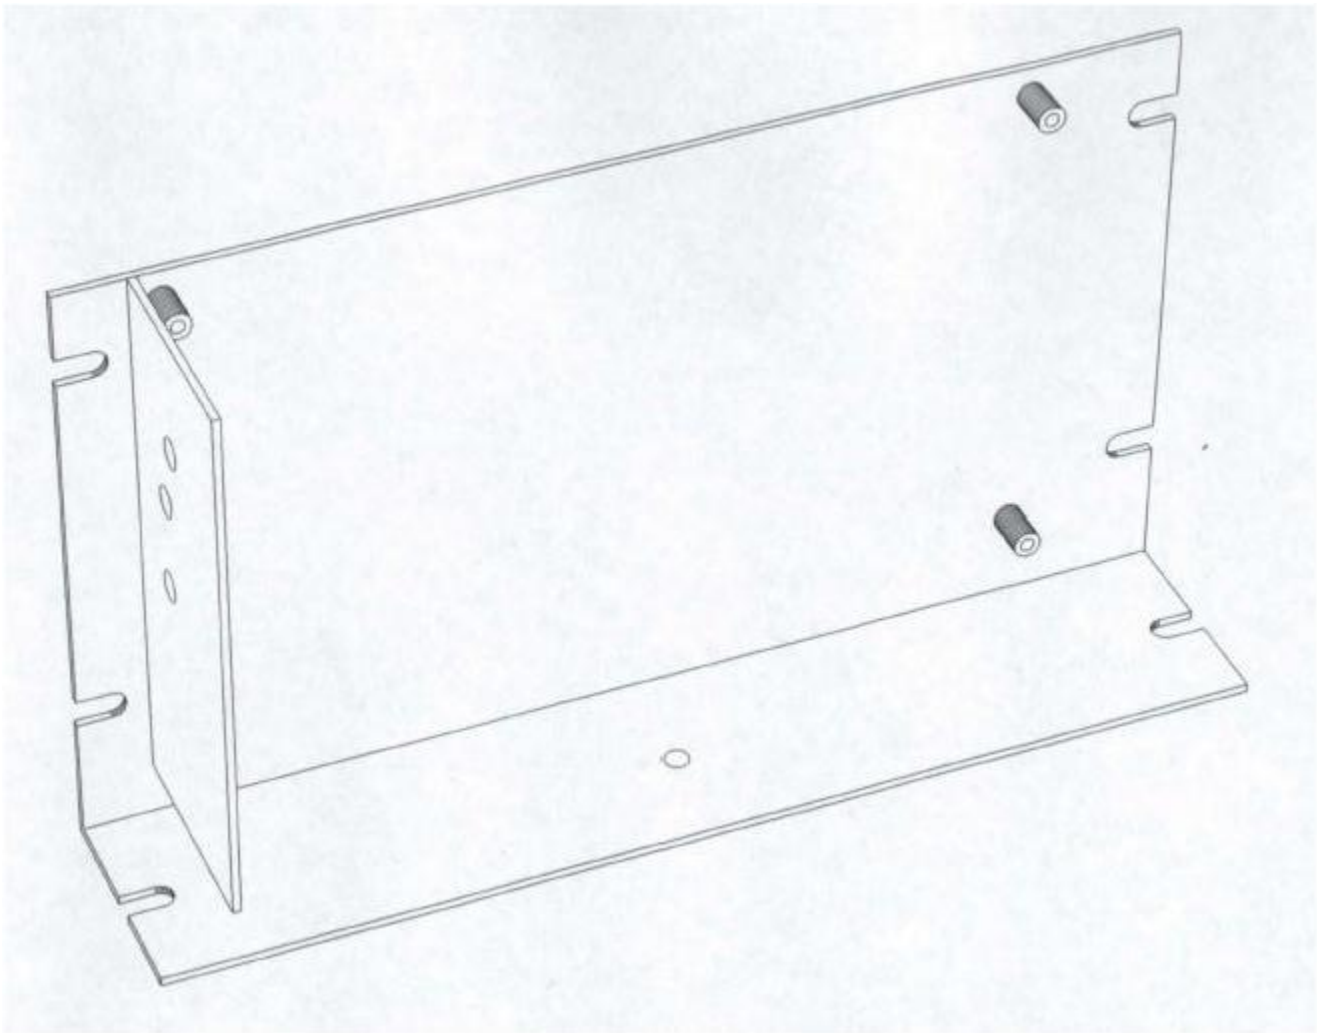

Three mounting configurations are shown above. *The basic E100D12 converter is a “Eurocard” format, 3U high.

The three mounting configurations viewed from terminals side.

Dimensions (illustrated with converter fitted).
